Installing Panopto Recorder to your machine

NOTE: You will only have to install the Panopto Recorder if you plan on recording with your personal machine. Panopto Recorder is already installed on the classroom iMac’s.

1. Visit http://hc.hosted.panopto.com. Under the User Login section of the page, click on the LOGIN USING drop down menu and select HAVERFORD COLLEGE MOODLE, then click LOG IN.

2. The next window will be the Haverford College Moodle main page. Proceed to sign in using your Haverford username and password.
3. Once you enter your moodle credentials, you will be sent to the Panopto interface. Click on the RECORD link on the top right corner of the page.

4. Select the installer for Mac OS X.

5. After the installer is downloaded to your machine, open the .dmg (usually stored in the “downloads” folder of your mac, Then click CONTINUE on the first window of the installer.
6. Select your computer's Hard Drive as the location where the Panopto recorder will be installed.

7. Finally, click INSTALL on the last window, the installer will now install Panopto recorder to your machine.
